“ My grandma was one special lady, and I will never forget the thanksgivings we shared together when I was younger. She also got me hooked on playing find the objects game on her computer! She always made sure we were fed and were doing good. She had the biggest heart and always took care of everyone, no matter what was going on with her. I loved spending time with her and my grandpa Tommy, they both loved everyone especially me because I was there first grand daughter. I am now pregnant with what would have been her great grandchild. I hate she won't get to meet him or her, but I know she is jumping with joy because she knows the gender! I pray she watches over all of us and is at peace. She will never be forgotten. Ever. I love you grandma.. take care.
